Netscape Communicator 4.0/4.01: Introduction (Multi-platform)

Course specifications

Course number: 074 920
Software version number: 4.0 and 4.01
Course length: 1 day

Course description

Overview: Students will learn the basics of how to navigate the Internet by using Netscape Communicator. They will also use electronic email, mailing lists, and discussion groups.

Prerequisites: *Windows 95: Orientation* or equivalent knowledge.

Delivery method: Instructor-led, group-paced, classroom-delivery learning model with structured hands-on activities, and extended labs for practicing.

Benefits: Students will learn what the Internet and World Wide Web are, and how to connect to them, as well as how to find information and download it, and communicate with others through email and discussion groups.

Target student: Students enrolling in this course should understand how to use Windows applications and have experience using the mouse.

What's next: This is the only course in this series.

Performance-based objectives

Lesson objectives help students become comfortable with the course, and also provide a means to evaluate learning. Upon successful completion of this course, students will be able to:

- Become familiar with the basic functions of the Internet and Netscape Communicator.
- Search for information on the Internet and the World Wide Web.
- Organize information that they find on the Internet by using bookmarks, saved HTML files, and the PowerStart page.
- Master the basics of communicating with others on the Internet by using electronic mail.
- Communicate with others on the Internet by using mailing lists and discussion groups.
- Customize Netscape Communicator features.
